Thank you!

I'm coordinating with John Lucotch of weston. we are working off the same database. All this was to get an application access scribe results. The application is accessing R9 2652 at the moment so no need to have subscription for remedial.

Thanks again for your assistance,

Dawit

Hi Dawit,

I'm not sure how much in the loop you have been, but the Region 8 and Region 9 projects have been split into 2 projects each (totaling 4). One with only analytical data and the other with samples, locations, etc. for each region.

Your request to have 2652 is only the R9 Analytical data. Please advise as to what projects you actually need to be added to your Remedial project.

Thanks,

Hi There,

We are asking a lot of subscription because of the ER in Animas

Could you add 2652 Gold King Mine ER to "USEPA Region 8 Remedial Subscription" Scribe.net Subscription

Dawit Kidane
